## 401L Stackable Incubator Shakers – RDS6 Series

**RDS6 series, a line of large incubator shakers up to 1 meter in size.**  
**Triple Eccentric Drive system: more stable, and more reliable.**

- **Large capacity, 401 liter.**
- **Stackable up to 3 units.**
- **±0.5°C Temp uniformity.**
- **Triple Eccentric Drive.**
- **10" Large LCD color display control panel.**

## 381L Stackable Incubator Shakers with White Light – IS-6L Series

- IS-6L Series Incubator Shakers, with white light, 381L capacity.
- Light intensity resolution: 100Lux. Light strength up to 20000Lux.
- Stackable up to 3 units.
- Triple Eccentric Drive.
- 10" Large LCD color display control panel.

## 250L Stackable Incubator Shakers – IS-4 Series

- **IS-4 Series Incubator Shakers.**
- **Smaller size with better temperature uniformity,  $\pm 0.3^{\circ}\text{C}$ .**
- **Stackable up to 3 units.**
- **Triple Eccentric Drive.**
- **10" Large LCD color display control panel.**

## 190L Stackable Incubator Shakers with Magnetic Drive – IS-AM Series

- Incubator Shakers with Magnetic Drive.
- Magnetic Drive motor: more reliable, low maintenance.
- Stackable up to 3 units.
- Triple Eccentric Drive.
- 7" Large LCD color display control panel.

## 190L Stackable Incubator Shakers – IS–AX Series

- Three axis eccentric balance system provides stable and reliable shaking Terminal feedback system ensures precise shaking speed
- Brushless DC motor is highly efficient, quiet, durable, and produces negligible heat that does not affect the chamber temperature
- Combination of Proportional-Integral- Derivative control and Fuzzy control for temperature ensure temperature accuracy within  $\pm 0.1^{\circ}\text{C}$
- Program mode allows user to set up to 12 segments of varying temperature and speed

◆ Color Capacitance Touch Screen(CO<sub>2</sub> Incubator Shakers)

**Main Interface:**

1. Displays the current status.
2. Light button: Press to turn the light on or off.
3. Displays the current function's running status, orbit diameter, and any alarms.
4. Plus and minus buttons: Adjusts the corresponding value.
5. Displays the set value, and allows user to manually input the set value.
6. Run/Stop button: Runs or Stops corresponding function.
7. Edit button for programmable mode: Sets up to 12 running segments.
8. Running mode button: Switches between "easy" and "program control" mode.
9. Run/Stop all button: Runs and stops all functions.
10. Main settings button: Enters settings page (Figure 3) then to corresponding settings page where user can edit settings.
11. Function icon buttons: Displays the real-time functions.

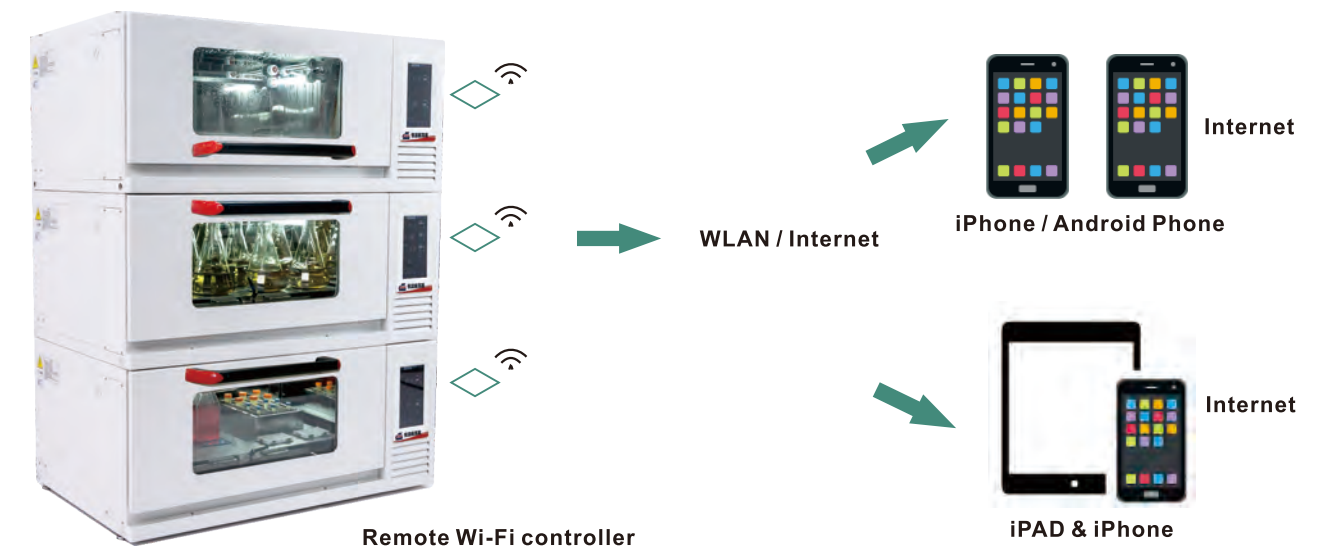

◆ Color Capacitance Touch Screen (Incubator Shakers)

◆ Press Button Screen (Incubator Shakers)

◆ Remote Monitor & Control System & APP (Optional)

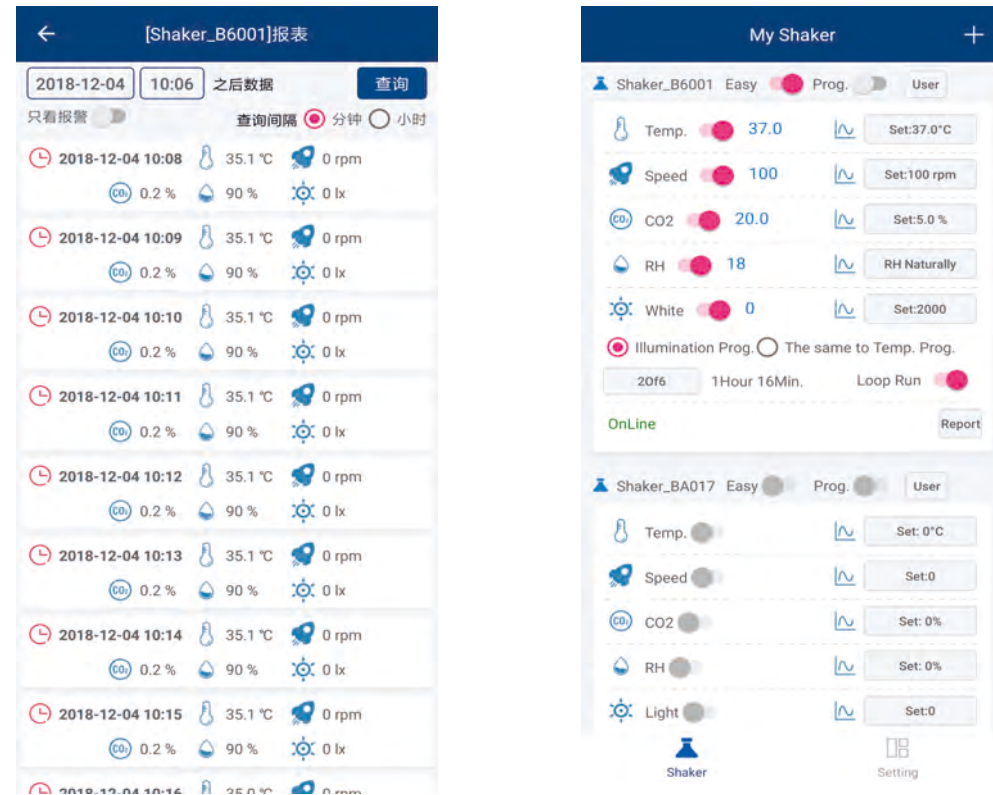

◆ Description

It is a wireless monitoring software for mobile phones used in the Internet or local area network to monitor and control the incubating shaker. All parameters of a unit can be monitored and controlled by a mobile phone, and multiple mobile phones can also monitor and control one or more machines. It is very suitable for timely monitoring of culture conditions which need higher culture environment. You can check the history data in the mobile phone, according to the culture effect of historical data, so you can optimize the latter culture parameters.

◆ Features

- ☐ One cell phone can monitor multiple shakers at the same time.
- ☐ More than two mobile phones can monitor one or more shakers at the same time.
- ☐ Mobile phone can monitor and control the temperature, speed, humidity, CO<sub>2</sub>, light and other parameters of the shaker through the LAN and the Internet.
- ☐ Mobile phone can receive alarm information timely, and the alarm can be disposed.
- ☐ Mobile phone can program to the machine and let the unit run as several section programs (the maximum is 12).
- ☐ Mobile phone can view historical data, including temperature, speed, humidity, CO<sub>2</sub>, light, and other historical parameters.

[ Mobile phone APP user interface]

◆ WiFi monitoring Technical Data

|                              |  |
|------------------------------|--|
| CPU                          | Four Core SoC @ 1.0GHz, 1GB LPDDR2 SDRAM |
| Memory                       | 32GB                                     |

| Communication                | USB 2.0                                  |
| Smartphone Support           | iOS / Android                            |
| Hierarchical User Management | Supported                                |
| Dimension (L x W x H)        | 210x142x210mm                            |
| Net Weight                   | 1kg                                      |

\* Please refer to page 30 for configure.

◆ Computer monitoring software for Incubator shaker (Optional)

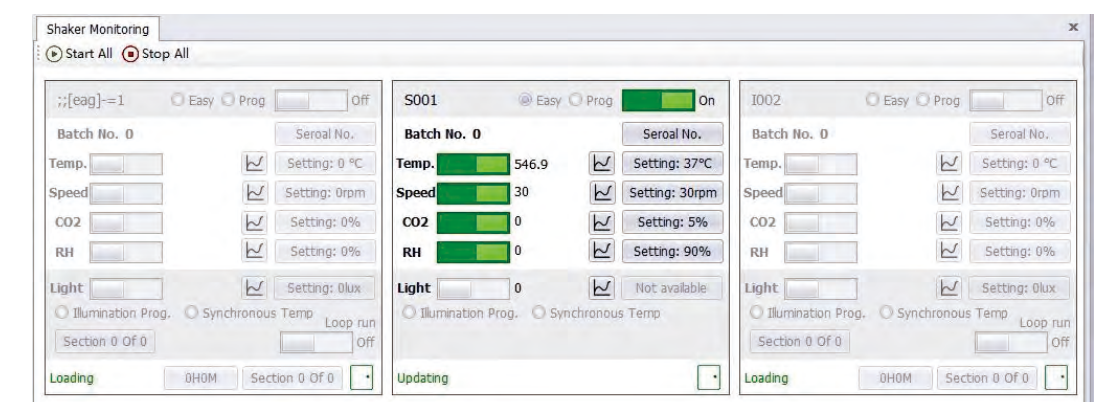

◆ Description

ShakerMate is a computer software which is used for monitor and control the incubating shaker in LAN. A computer can monitor and control all the parameters of multiple machines, all settings change and related account operations on the machines could be recorded to the log file. The running data of the machine can be recorded every minute and stored in the database file, and the stored data can be exported to be a file, meet the requirements of FDA. It is very suitable for the requirement of records for both culture and operation.

◆ Features

- ☐ One computer can monitor and control up to 32 shakers at the same time.
- ☐ Computer can program to the machine and let the unit run as several section programs (the max. is 12).
- ☐ Arbitrary operation and machine data are recorded in log files and database files respectively, it can meet the data traceability requirements of FDA.
- ☐ Send a message to the machine's alarm information to the designated mobile phone.
- ☐ Computer can monitor and control the temperature, speed, humidity, CO<sub>2</sub>, light and other parameters of the shaker through the LAN.
- ☐ Historical data reports can generate temperature, speed, CO<sub>2</sub> concentration, and humidity curves to see if there are any anomalies at a glance.

## IS-RDS3/ IS-RDS4 Series Stackable Incubator Shaker (Button Control)

**270L Stackable Incubator Shaker**

**270L Stackable Incubator Shaker  
with Light Controller**

**215L Stackable Incubator Shaker**

### ◆ Description

Stackable incubator shakers are the ideal choice for optimizing laboratory space without compromising the advantages of performing large capacity incubations. The products are designed with sliding platforms and light controller for easy of access to samples.

### ◆ Specifications

| IS-A10      | 5000ml         |   |
| IS-A50      | 25ml           |   |

Adjustable Test Tube Rack

| Part Number | Specifications                        | Note  |
|-------------|---------------------------------------|---|
| IS-A20      | 40 Hole $\phi$ 14mm For 5ml Tube      | Made of stainless steel and high grade ABS plastic material. Compatible with all of IncuShakers®. Outside Dimensions (W x D x H): 267x125x172mm |
| IS-A21      | 40 Hole $\phi$ 16mm For 10ml Tube     |   |
| IS-A30      | 40Hole $\phi$ 18mm For 15ml Tube      |   |
| IS-A109     | 40Hole $\phi$ 16mm For 15ml Tube Mute |   |
| IS-A31      | 27 Hole $\phi$ 22mm For 20ml Tube     |   |
| IS-A32      | 21Hole $\phi$ 30mm For 50ml Tube      |   |
| IS-A102     | 21Hole $\phi$ 30mm For 50ml Tube      | IS-A109 Outside Dimension (include knob): 305x125x172mm   |

Test Tube Rack

| Part Number | Specifications                    | Note  |
|-------------|-----------------------------------|---|
| IS-A11      | 40 Hole $\phi$ 14mm For 5ml Tube  | Made of stainless steel and high grade ABS plastic material. Compatible with all of IncuShakers®. Outside Dimensions (W x D x H): 262x112x140mm |
| IS-A12      | 40 Hole $\phi$ 16mm For 10ml Tube |   |
| IS-A23      | 40 Hole $\phi$ 18mm For 15ml Tube |   |
| IS-A24      | 27 Hole $\phi$ 22mm For 20ml Tube |   |
| IS-A42      | 21 Hole $\phi$ 30mm For 50ml Tube |   |

Test Tube Holder

| Part Number | Specifications                        | Note   |
|-------------|---------------------------------------|--|
| IS-A101     | 21Hole $\phi$ 30mm For 50ml Tube Mute | Add tube stabilization device running static Outside Dimension: 262x112x142mm                          |
| IS-A106     | 40Hole $\phi$ 18mm For 15ml Tube Mute |  |
| IS-A103     | 10Hole $\phi$ 30mm For 50ml Tube Mute | Add tube stabilization device running static Outside Dimension: 197x86x105mm also for bench top shaker |
| IS-A105     | 24Hole $\phi$ 16mm For 15ml Tube Mute |  |

Adjustable Test Tube Rack

| Part Number | Specifications                    | Note  |
|-------------|-----------------------------------|---|
| IS-A37      | 24 Hole $\phi$ 30mm For 50ml Tube | Made of stainless steel, rack for 300mm long tubes. Outside Dimensions (W x D x H): 423x150x200mm |

◆ Incubator Shaker Accessories

Multifunction Spring Platform

\* Made of stainless steel. Can be fixed onto shaking platform.

| Part Number | Specifications | Weight | Note                              |
|-------------|----------------|--------|-----------------------------------|
| IS-A19      | 165x165x80mm   | 1.2kg  | For all shakers.                  |
| IS-A27      | 350x240x80mm   | 2.5kg  | For IS-RSDA Series                |
| IS-A22      | 450x400x80mm   | 5.1kg  | For IS-RDD3, IS-RSD3 Series       |
| IS-A39      | 720x440x80mm   | 11.4kg | For IS-RDS3, IS-RDS4, IS-4 Series |
| IS-A63      | 899x539x81.5mm | 13.8kg | For IS-RDS6, IS-6L Series         |

Fixture for Separating Funnel

| Part Number | Specifications | Note   |
|-------------|----------------|--|
| IS-A25      | 355x402x153mm  | Used for separating funnel with volume 5000ml. |

| Part Number | Specifications | Note  |
|-------------|----------------|---|
| IS-A35      |                | Used for separating funnel with volume greater than 5000ml. |

Infusion Bottle Clamp

| Part Number | Specifications | Note   |
|-------------|----------------|--|
| IS-A33      | 500ml          | Made of stainless steel. Can be fixed on all platforms of incubator shakers. |

| Part Number | Specifications | Note   |
|-------------|----------------|--|
| IS-A34      | 1000ml         | Made of stainless steel. Can be fixed on all platforms of incubator shakers. |

◆ Incubator Shaker Accessories

Self-Adhesive Silica Mat

| Part Number | Specifications | Note  |
|-------------|----------------|---|
| IS-A47      | 140x140mm      | Use for all shaker, wipe with water, dry for few minutes, the mat will be self-adhesive on surface. |
| IS-A122     | 280x280mm      |   |

\* Adhesive works better after lay-out the mat on the surface for 10minutes.

| 140x140mm Sticky Mat Quantity | 5pcs      |

◆ Incubator Shaker Accessories

Rack for Stacking Incubator Shakers

| Part Number | Specifications | Note   |
|-------------|----------------|--|
| IS-A29      | 948x630x225mm  | Support stackable incubator shakers (up to two units). For IS-RDS3, IS-RDS3C, IS-RDS4.               |
| IS-A62      | 1440x775x330mm | Support stackable incubator shakers (up to two units). For IS-RDS6 series, IS-6L series.             |
| IS-A91      | 1241x651x340mm | Can place one or two stackable touch screen full-temperature incubator shaker, used for IS-4 Series. |

◆ Incubator Shaker Accessories

5000ml Flask Holder

| Part Number | Specifications | Note  |
|-------------|----------------|---|
| IS-A26      | 500x292x200mm  | Hold 5000ml Flask.<br>(For IS-RDS3,<br>IS-RDS3C series) |

Deep Well Plate Clamp

◆ Incubator Shaker Accessories

Automatic Water Replenishing Device

|                     |                     |
|---------------------|---------------------|
| Part Number         | IS-A71              |
| Humidification Type | Automatic           |
| Power Supply        | AC110~240V, 50/60Hz |

Automatic replenisher has a detector to keep the water level in the humidity tray. Distilled water could be automatically replenished from water tank if the water in the humidity tray is below the level and replenishing stops when the water level is reached. No need to refill water manually.

Water Tank

| Part Number | Specifications | Note  |
|-------------|----------------|---|
| IS-A90      | 449x240x240mm  | Used with IS-A71 and IS-A72;<br>Capacity 15L. |

RH Controller

|                     |  |
|---------------------|--|
| Part Number         | IS-A72   |
| Humidity Type       | RH Controller  |
| Max. Humidity       | CO <sub>2</sub> Incubator 95%<br>Shaker 90%<br>Temperature use:<br>Ambient Temperature +10°C |
| RH Control Range    | Up 10% of the Ambient to 95%   |
| RH Set Accuracy     | ±1%  |
| RH Control Accuracy | ±5%  |
| Water Refill        | Automatic  |
| Power Supply        | AC 220V±22V, 50/60Hz   |

The RH control system includes a humidity controller and automatic replenisher. The controller regulates the heating temperature and water flow rate. When distilled water was replenished from water tank and get through the humidifier, high temperature steam is produced and spread into the shaker chamber. Therefore, the humidity in the chamber can be set and precisely controlled as required. No humidity tray is needed, no contamination in the chamber.

**Water Bath Shakers**

◆ Standard Features

Crystal water bath shaker features adjustable speed range of 20 – 200 rpm, slow ramping up and down, LED display, stainless steel construction, maintenance free brushless motor, PTC heating unit, and guarantees its continuous and heavy-duty operation. The product is built with low water level and overheating protection.
